New Advance of Italians Brings Them Nearer Trieste, Sir Wilfrid Didn't Which Is Less Than Ten Miles Away—Italians

Write Letter to Break Through Austrian Lines and Capture Strong Austrian Forts.

(By Morning Bulletin Leased Wire)

ROME, May 25.—On a front of nearly ten miles on he Carso Plateau the Italian troops have smashed the Austrian line hard and have taken various positions from he town of Castagnavizza to the head of the Gulf of rieste. In their renewal of their offensive the Italians eceived valuable aid from some of the ten British bateries which have hauled their big guns down to the sonzo front to help in the efforts aimed at the conquest f Trieste, Austria's big seaport on the Adriatic.

Not alone were the Italians successful in capturing FRENCH LINER umerous points of vantage, but more than 9,000 Ausrian prisoners, including officers in excess of 300, were

Taken By Surprise.

The Austrians are declared to have been taken comletely by surprise by the sudden onslaught of the Italians, tho, to divert attention from the southern end of the sonzo line, had struck a hard blow to the north. When, owever, the Austrians recovered from their surprise hey launched heavy counter attacks, but the Italians enaciously held the ground they had won.

The new advance of the Italians brings them appreiably nearer Trieste, which, from the lower part of the ine, is less than ten miles away. The ground traversed nd yet to be passed over is difficult for military operaions, and even with other successful advances such as he last one the objective of the Italians will not be attained

xcept by fighting of a most ferocious nature.

Official Announcement Made That Passenger Ship Is Sunk.

PARIS, May 24.—It is officially announced that the French liner Sontay, bound for Marseilles from Salonika with 344 passengers, was torbedoed on April 16 with a loss of 45 lives. The steamer sank rapidly in a heavy sea, but the prompt and methodical manner in which the small beats were launched saved the majority of those on board. Capt. Mages went down with the ship.

The Sontay was a vessel of 7.247 tons and was built in 1903. She was ewned in Marseilles.

(By Morning Bulletin Leased Wire)

WINNIPEG, May 24.—The Ottawa correspondent of the Manitoba Free Press, commenting tonight on the political situation at the capital following the government's conscription announcement, says in part:

"The most public of the significant features of the situation are the comment of the government press intimating that an attempt at coalition way be made. Conservative papers which have hitherto scouted the idea of party co-operation and co-ordination are today suggesting some form of union or joint action by the two parties as the most effective way out. The Ottawa Journal-Press, whose editor is very close to the premier. This disclaiming any official prompting, today goes so far as to say: There is some talk of the government party before coalition would be possible."

REGINA, Sask., May 24.—Only a brief session of the Western Canada Conference of Typographical Unions was held here today. Addresses of welcome were made by prominent labor leaders. In the afternoon the Parliament Buildings and R.N.W.M.P. Barracks were visited.

At the evening session, a resolution was passed protesting against the enforcement of compulsory service until such time as the wealth of the land has been conscripted and the leectorate has been given an opportunity to decide the issue by ballot.

A resolution was also passed thanking Premier Sifton and Hon. C. W. Cross, Alberta, for the passing of the Factory Act.

Presumably the clued in the cast in the deal of what the cast is also probable that the deal of the feat

situation was under review by the ministers.

All that can be definitely stated about the coming conscription bill is that it will make provision for a non-rartisan selection of the men of military age who are to be chosen to fill the gap in the ranks of the Canadians fighting the Germans along the Hindenburg line in France, and that youths of less than twenty years will not be compelled to serve overseas, that having been officially announced yesterday.

The parliamentary situation relative to the selective conscription measure remains a puzzle that time alone will solve. It is impossible to even suggest what is likely to happen to the house until the details of the measure have been explained and debated.

CAR STOPPED ON BRINK OF THE RAVINE

Had Previously Wrecked Mail Rig-Alleged Joy Rider Arrested.

At half past one o'clock this mornng as Edward P. Robbins, the driver

At half past one o'clock this morning as Edward P. Robbins, the driver of a mail rig, was proceeding through Athabasca avenue, in the west end, collecting from the street letter boxes, a big red touring car came booming up behind him and ran squarely into his cart. The vehicle was smashed to matchwood, and the harness broken, but driver and horse, by good fortune, escaped injury.

The automobile, executing one of those loop-the-loop stunts which thrill the "movie" lover, backed away and disapeared up the avenue. The next seen of it was on Wadhurst road, when it had left the road way and stopped within six feet of the edge of the ravine, for which it had apparently been headed by its driver. The guy wire of a telephone post had stopped it from going over the brink and making the drop to the bottom of the ravine, far below. The wire had bent the mud guard of the machine and cut deep into the tire of one of the front wheels but, being of good stuff, had held.

The car belonged to James Ryan, of the Farney Truck Co., and Mr. Ryan says it was taken from his garage without his permission and used for "joy riding" last night. He had just notified the police when the accident to the mail rig occurred.

When the police arrived at the place where the first smush had occurred Mr. Ryan appeared, accompanied by Ernest Palmer, of 10224, one of his employees. Palmer was the driver of the car and said that he had come back to tell Mr. Ryan where the car was at that moment. After a little questioning the police arrested Palmer and locked him up. He will be charged with being drunk and with taking the car.

Col. Armand Lavergne Says He Will Die Before Submitting.

(By Morning Bulletin Leased Wire)

QUEBEC, May 24.—In a heavy downpour of rain at Montcalm Market tonight Colonel Armand Lavergne addressed Quebec's second anti-conscription meeting. After the meeting was closed a crowd marched to the offices of the Quebec Chronicle and L'Evenement, and smashed the windows, after jeering at the buildings, shouting "Down with Conscription," and singing "O Canada."

tion.

For his part Colonel Lavergne said, he would not accept conscription whether passed or not passed by parliament. He would go to gaol of would be hanged or shot before he would accept it.

About three thousand people, while waiting for the arrival of speakers, sang French-Canadian folk songs, and shouted "Down with conscription." "Down with Borden, we shall strangle him," "Down with L'Evenement," etc.

Colonel Lavergne Talks

Colonel Lavergne Talks

Colonel Lavergne said that for 18 years he had been treated as a fool and a demoniae. The meeting which he was addressing was proof conclusive that his preachings had been right. If the people of Quebec were facing conscription in 1917, and the men were obliged to go overseas, it was not Bourassa and Lavergne who would be responsible for the tears of their women and children. The people of this province could strike their breasts and say it was their own fault.

Origin in 1899

Origin in 1899

He held that the conscription of 1917 had had its origin in 1899, when Canada had sent men to assist in crushing a small nation in the Transyaal which only wanted the right to ive. England, of course, was strong enough to accomplish it herself, but she only wanted to establish the principle of Canada's participation in the war of the empire.

MONTREAL, May 24.—Anti-conscription demonstrations, almost amounting to riots, occurred in the streets of Montreal tonight. A dozen processions of men, mostly young men, were in progress at the same time, occasionally becoming tangled up with each other for a while, and finally converging at an open air meeting at the corner of Logan and Champlain streets.

Mayor Mederic Martin, M. P., was one of the speakers. He deprecated the smashing of windows in La Prease office and the office of La Patrie, lass night. He said: Don't Be Violent

"I ask that you be not violent; that you do not attack property. I ask you, as a favor, not to do anything of violence."

you, as a favor, not to do anything of violence."

Napoleon Seguin, M.P.P., for St. Mary's, in whose constituency the meeting was held, said:

"I have too much confidence in the electors to think that they will commit injustices, and I ask them to be peaceable and not make any demonstrations after this meeting.

"Some newspapers are trying to make out that Laurier will follow Borden, but they lie. Laurier is against conscription. Wait for events, in parliament. Laurier is still there to defend you. Don't let people talk revolution; don't let people say that the province of Quebec wants revolution, for it will suffer."

Resolution of Protest

Resolution of Protest

A resolution, moved by L A. Ricard, rotary, who said the newspapers were prevented from taking the part of the people because of a fine of \$5,000 or six months' imprisonment, was passed to the effect that, while professing loyalty to the king, and attachment to the Canadian soil, those attending the meeting protested against all measures of coercion having the effect of enrolling in Canada other troops for overseas service than the 400,000 already mustered.

Windows Smashed

More window smashine by the anticonscriptionists followed tonight's demonstration. The office of La Presse again suffered and a number of windows in the board of trade building were broken. One arrest was made.

Armand Neagle, a member of the Tcamsters' Union and one of the local leaders of labor, spoke in Lafonataine Park before the parade started. He said the workingmen would centilinue to protest against the high cost of living and against conscription, but they would keep within the law.

BOWLERS IN FINE FORM

Take Four Out Of Six Games From Local Experts On Holiday.

Vegreville American five pin bowlers, who paid a holiday visit to Edmonton, have good reason to be proud of their performances. They played six games, three in the morning and three in the afternoon. They lost two of the three morning games, but won the three evening contests, and in both winning and losing gave a splendid exhibition of the game which has become very popular of late.

In the morning they played the Journal team. The Journal team won the first two games, but Vegreville got into its stride in the last game and stepped out and rolled a total of 799.

In the evening Vegreville decided to

To steeped out any foliate a total role of the evening Vegreville decided to match its strength against all Edmonton, which offer was accepted. But the Vegreville boys kept up their good rolling and finished with all three games in their possession, and a grand total of 2330—one pin less than their morning opponents had totalled.

T. Casson of Vegreville, was high accept for the day, toppling over a count of 172 in the second morning game. The scores follow:

Sporting Facts and Fancies

There is one man who is particularly anxious to see the Cubs win as pennant. That man is Jim Gaffney. It was he who recommended red Mitchell to President Weeghman and naturally he wants to be his protege succeed.

Speaking of good baseball, just cast your glance toward the Newark team of the International league. They say Jim Price is mighty pleased man these days and he has all reason to be, for his team is leading the circuit and is very likely to keep its place for a

Boy, page Mr. Hendry and hand him this bouquet. That Yankee outfielder is certainly delivering the goods. His field work is excellent and he is hitting hard and often.

The Yankees seem to be having a lot of hard luck and one won-ders if the Old Hoodoo is hovering over Bill Donovan's outfit. That gentleman, as usual, has plenty of capable substitutes and, by Heck, he needs 'em.

When Connie Mack expresses an opinion on basebull, you can usually bet your bottom dollar he's right. Therefore, it is interesting to note that he considers Meyer, the Athletics' star backstop, a better catcher than Wally Schang. Meyer has got to go some to live up to that reputation.

Everybody gather around and listen: This is about Ferdio Schupp, the southpaw star of the Giants. He's fooling the National league batters to beat the band and he's got them running around in circles—not on the bases, however. The fact is that Ferdie seems to be starting where he left off last season and what the outcome looks like is making the Giants smile—and almost making the other teams weep. While we are talking about the fellows who are setting the pace, don't let us overlook Mr. J. Smith of St. Louis. That gentleman is swatting in great shape, his average being around .450, Another young man who is displaying considerable talents with the stick is Eddie Roush, who is running second to the man from St. Louis. And then there is George Sisler, who gracefully occupies the place in the swatting that was long and strenuously held by such eminent men as Ty Cobb and Tris Speaker.

Arthur Redfern, the noted jockey who died recently as the result of an automobile accident, rode many winners on tracks all over the country a dozen or so years ago. He piloted the great Hermit to victory in the Suburban and Brookdale handicaps and also in the Brighton Cup race. He had the mount on the immortal Sysonby when the latter as a two-year-old galloped off with the Junior Champion Stakes and the Saratoga Special. Redfern also won the Saratoga Special with Mohawk II and the Saratoga Cup with Oaughnawaga, the United States Hotel Stakes with Burgomaster, the Juvenile with Song and Wine, the Grand Union Hotel Stakes with Battleave, the Futurity with Ormondale, the Double event with Veto and the Champagne Stakes with Meltonian. Furthermore his victories included the Annual Champion, Century and Hindoo Stakes with Stalwart, the Alabama with Par Excellence and the Brighton Junior with Hurstbourne. Other stake winners ridden by Redfern were Moontressor, Highlander, Lady Amelia, King Pepper, Dolly Spanker, Merry Acrobat and Divination.

Speaking of racing, this is the anniversary of the birth of one of the most famous horses that ever ran on an American track. That horse was Eclipso, whose race against Sir Henry in 1823 really marked the beginning of horse racing in the fashionable Long Island section of New York. After three brilliant seasons the New York legislature stepped in and abolished horseracing, and Eclipse was relegated to the stud. A short time afterward he was brought out and won many victories elsewhere until finally a challenge was brought from Virginia and Eclipse was pitted against Sir Charles, the best horse in the south, for \$10,000 a side to run four mile heats over the National Course at Washington. On the day of the race Captain James J. Harrison of Brunswick, Va., announced that he would pay forfeit for Sir Charles, the horse having met with an accident, but offered to run him in a four mile dash for \$1,500. Eclipse won and Sir Charles broke down. Eclipse was later matched against other horses, and carried off all the honors, retiring with his laurels intact.

On May 25, 1907, Ad Wolgast knocked out Kid Morris in three rounds at Milwaukee. Two years later on the same day Ray Bronson and Johnny Thompson foughta six round, no decision bout at Columbus, at the same time Freddie Welsh and Phil Brock rought twelve rounds at Boston. In 1910 Jim Driscoll and Pal Moore fought six rounds, no decision at Philadelphia. In 1911 K. O. Brown knocked out Tommy Murphy in one round at New York.

Had Awful Attacks

of Heart Trouble FOR 5 OR 6 YEARS

Diseases and disorders of the heart and nervous system have become frightfully prevalent of late years.

One can scarcely pick up a paper but he will find recorded instances of sudden deaths through heart failure. or of prominent men and women unable to prosecute their ordinary business or profession on account of a breaking down of the nervous system.

We do not desire to unnecessarily alarm anyone, but to sound a word of warning.

When the heart begins to beat irregularly, palpitates and throbs, has shooting pains through it, it is time to stop and think.

To all sufferers from heart and nerve troubles Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. Frank Arseneau, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be.

"At the present time my sister is using them for nervousness and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 500 or three boxes for \$1.25 at all dealers,or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto.

The Reserve Militia Picnic at Alberta Beach on Victoria Day was a success in spite of the handicap of a rainy morning and the cool cloudy weather. Ten coach loads of holiday makers left the city at 12.30 and spent the afternoon on the shore of Lac Ste. Anne at the popular C. N. R. summer resort. The morning train having been cancelled.

The feature of the program was the official presentation of the title to the five acres of land on Alberta Beach, the gift of T. J. Alexander, to the provincial committee of the Military Hospitals commission for use of returned soldiers. The official presentation was made by His Honor Lieutenant Governor Brett and the gift was formally accepted by Howard Stutchbury, secretary of the provincial hospital commission.

The Lieutenant Governor referred to Lac Ste. Anne being a landmark of the province and how in no more fitting way could this historic landmark be preserved in the annals of the nation than in the use of this sits so generously donated for the benefit of the returned soldjers, who in unison with the men of all other parts of the empire had suffered and sacrificed for the liberty of our homeland. The opinion was expressed that there were not snough public spirited men like Mr. Alexander who were coming forward to show by some such generous act sincer and grateful appreciation of the work of the returned soldier.

VANCOUVER MEN VISITORS IN EDMONTON

Business Men of Coast City On Way To Ottawa-Want National Port.

To urge upon the Dominion govern ment the necessity for creating Vanmittee consists of B. W. McGreer president of the Vancouver board of trade, W. A. Blair, secretary of the same body: C. E. Tisdall, W. H. Mal-kin, W. Biake Wilson, E. C. Knight same body: C. E. Thedall, W. H. Malkin, W. Biake Wilson, E. C. Knight, Norman McLean, George Buscombe, City Engineer Fellowes, Mayor Vance of North Vancouver, Ald. Loutet of North Vancouver and Ronald Kenvyn, marine editor of the Vancouver Daily Province, Other Vancouver men now in Afonireal will join the delegation at Ottawa.

The committee argues that as Vancouver is Canada's western terminal port, it should be developed by the Dominion for the benefit of the country as a whole, and that the cost of such improvement should be borne by Canada and not by the shipping visiting Vancouver. In other words Vancouver should be developed as a national port. The committee will else bring up the sucstion of a drydock for Burrard Inlet.

The delegation is traveling in a private car and Canadian Northern officials are looking after the tourists. Mr. Rochester and Mr. Maguire accompanied the delegation as far at Kamleops, where Mr. Madili took charge.

Never In History Of City Has There Been So Much Ground Broken.

"Have you got your garden seed al' in yet?" is a question heard almost at often in Edmonton as "How do you think the election will go?"

Never in the history of this town has there been so much ground broken for gardening, and if the usual idmonton season follows never will there be such a display of gardenitruck as will be shown here this fall. Every greenhouse in the city reports a phenomenal sale of transmantanting plants and one can scarcely ride on a car leaving the center of town but he will see from five to ton men hugging a package of young plants. In every block, some within a stone's throw of Jasper, the plow has turned the rich black soil over and both men and women are busy and seemingly delightedly so in planting seed.

A gentieman from the States year trade of the cost of living but would prove of immense advertising worth when the surface would not only serve to lessen the cost of living but would prove of immense advertising worth when the surface has deverted would not only serve to lessen the cost of living but would prove of immense advertising worth when the surface and east the people who are now visiting Canada in increasing numbers.

There is another side to the gardening activities well worth white, and that is the health the work brings. Rosy cheeks and zood appetites follow a spell with the hoc and rake. There is ley and pleasure in watching the first appearance of the young shoots as they break through the soil and the happy anticipation of a mess of grees things is often as sweet as the final itelization.

The projected pilenic by the employees of the telephone department at Cocking Lake was catled off, but the reserve millina and their friends went in goodly numbers to Lac Steanne, as per program, and the affair was voted a big success. A report of the excursion appears in another place in The Bulletin today.

Three lodges of the Royal Arch Masons of Edmonton united in a basket picnic on the golf link grounds, and there was a good turn-out, considering the weather conditions. The Newsbey's Band contributed the muste and a most enjoyable outing was the re-

J. Beaton, Sales Manager of Mc Laughlin Carriage Co., Visitor In City.

J. Beaton, sales manager of the McLaughito Carriage Co., is in the city on his semi-annual visit to the different branches of the company. He reports that this year will be the most successful in the history of the company. The greatest difficulty is being experienced in securing sufficient cars to fill the orders which are coming in for all branches in excess of their allotments, the Northern Alberta branch having disposed of considerably more cars than was expected at the beginning of the year.

Stomach Troubles Due to Acidity

So-called stomach troubles, such as indigestion, wind, and stomach-ache are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as hearthurn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermentation of the food contents of the stomach and causes that full, oppressive feeling sometimes known as hearthurn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is not only unnatural, but may involve most serious consequences, if not corrected. To stop or prevent fermentation of the food contents of the stomach, and concept it bland and baruless, a teaspoonful of bisurated magnessa, probably the best and most effective corrector of add stomach known, should be taken in a quarter of a glass of bot or cold water immediately after eating, or whenever wind or recidity is feit. This stope the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as bisurated magnessa, which can be obtained from any druggist and thus enable the stomach to do lits work properly without being hindered by polsonous gas and dangerous acids.—M. Road stains, whether from mud, asphalt, tar, oil dirt or oil proper, are yery hard to get rid of. Let mud severely alone until it dries in a cake, then brush off, wiping while wet only gives it a firmer hold on the fabric. A soft mud, if it can be dipped almost instantly in clear water, laved without touching and have water poured through from the back, wil not leave a mark. Clay mud should have bolling water poured through it from under side. Wet as small a space as possible, stretch smooth, let dry, brush or rub with coarse velvet, cover with a cream of French chaik and alcohol, let dry and brush off. This for silk or wool. Wash fabrics, of course, are casy to launder,

Grimy mud should be well wet with kerosene, allowed to, stand for an hour, then cleaned with alcohol or gasoline.

Gasoline or benzine will also take out spots of tar and asphalt, but can be removed more easily if wet with turpentine.

A Minister's Evidence

That Piles, or Hemorrhoids, Can be Quickly Cured-A Justice of the Peace Cured Many Years Ago.

Toronto, Ont., May 25.—There has come to us recently these two letters from prominent men who bear unquestionable testimony in regard to Dr. Chase's Ointment as a prompt and lasting cure for piles.

These men give their evidence freely because they know what it means to suffer from the tortures of piles and then be cured. They feel it a duty and a pleasure to let others know how they too may be cured.

Rev. Frank N. Bowes, Methodist Minister Priceville, Ont., writes: "In the wirter of 1912, I was stationed in Cobalt. I went for a snowshoe tramp one day, and sat for only a few minutes on a cold stump waiting for some comrades to catch up to me. From sitting on the damp stump I contracted piles, and suffered so severely that it caused me great pain to walk. A friend recommended Dr. Chase's Ointment, and I immediately purchased a small box which very rapidly effected a cure. I always keep a box on hand and find it excellent for any kind of wound or sore."

a cure. I always keep a box on hand and find it excellent for any kind of wound or sore."

Mr. W. B. Thorne, J.P., Alderside, Alta., writes: "It was twenty-eight years ago that I became acquainted with the merits of Dr. Chase's Ointment and would not be without it on any account as it never fails to de its work. I was first induced to try it for piles. Less than one box cured me and I have never been troubled since. That was twenty-eight yeers ago, so I think the cure is permanent. It is good for sore lips and hands, chaffing and in fact, all sorts of sores. You are at liberty to use this statement for the benefit of others."

You can put Dr. Chase's Ointment to the test in any case of piles with the utmost assurance that you will obtain relief from suffering and ultimately lasting cure. 80 cents a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

GERMANY'S AGRARIAN TARIFF.

GERMANY'S AGRARIAN TARIFF.

From the Ottawa Citizer:

The statement of a local contemporary that free trade in Britain had prevented the bringing of land under cultivation and that therefore the fiscal policy of the United Kingdom is directly responsible for the intensification of the submarine menace is predicated upon the assumption that Germany is, owing to protection, a much better agricultural country than Britain, or, at least, that protection has made that country more self sustaining. We know that in Canada this is not the avowed aim of protection. We are told that here protection is designed to build up the cities. How can the same fiscal policy exhibit diametrically opposite effects? As a matter of fact it does not. The irrefutable figures of German trade show that tariff duties have oppressed the industries of that country to an almost incredible extent, but this subject can be dealt with later. Just now we are concerned with agricultural results. A certain index to the agricultural prosperity of a nation is the number of persons engaged in farming and it is upon the increase of the farming population that a country must depend for agricultural progress. Moreover, the test of rival fiscal systems so far as regards agriculture, would depend upon the comparative numbers of those engaged in agricultural under the respective policies. Now, as it happens, Germany itself can give us a very good idea of the effects of the rival policies under the most modern conditions, because Germany within the past thirty years has had experience of both methods as applied to agriculture. It was not until 1992 that the present agrarian tariff was idopted by the German reichstag. By it the duty on wheat was raised to 55 marks, on oats to 50 marks, on mail ariey to 60 marks, on frozen meat to 356 marks, on one to 50 marks, on frozen meat to 55 marks, on one of the comparative to 55 marks, on one of the comparative to 55 marks, on one of the comparative protection only from lonkeys, foreign decorations and dead podies in co

consumer, but we are dealing now with the assertion of our contemporary that free trade has reduced the farming area of Britain or has preented land from being brought under untitivation. Let us see what happened in Germany following this act.

In 1907 the asricultural population of Germany was in round numbers 17,675,000. In 1895 it was 18,500,000 in 1892 it was 19,255,000. In relation to the entire population the figure were 28 per cent. in 1907 as agains 12,200 cent. in 1882. But that is not all. Excluding those branches of agricultural work, we find that the agricultural work of the German empire not only decreased absolutely but relatively to the whole population. In 1907 there were 2,500,000 independent farmers as against 2,568,000 in 1895. farmers as against 2,568,000 independent farmers as against 2,568,000 in 1826. We have a decrease here. But between 1882 and the passage of the agrarian tariff the number of independent farmers had increased 280,000. We see, therefore, that during the period of economic liberalism the number of farmers owning their own farms in farmers owning their own farms in farmers owning their own farms in-creased while in the period of high protection the number decreased in a

protection the number decreased in a narked manner.

But there is yet another fact, full significance. And this is that the umber of persons engaged in agricultral labor has increased by the emloyment of women in the fields. Unser economic liberalism the number of women working on farms in 1882 as 2,250,000; during the next tweive last the number increased to only 3,388,000. But under protection the nerease has been enormous. In 1907, he last year for which statistics ar wallable, the number of women energed in agricultural pursuits in Geraged in agricultural pursuits in Geraged. wallable, the number of women enaged in agricultural pursuits in Gerany was 4,254,000. This shows cleary that under protection there is no onger any room in German agriculture for the small man working either is an independent farmer or as a aborer. He drifts into the towns. Taving the women to take his place. Frotection, in Germany as elsewhere, has tremendously decreased the agricultural population so far as the merare concerned.

Another "Nest of Traitors."

From the Ottawa Citizen.

The situation in this country has reached a stage where all attempts at legitimate criticism of the administration, whether by the opposition in the Commons or the public press, is greeted by the parrot cry that Canada is at war and that any attempt to ombarrass the administration is playing into the hands of the enemy. The party press is harping on this string continually and particularly in reference to the rumored coming election. The very idea of a contest at the polishorrifies the partisans, who had ballots printed and campaign literature prepared for a general election many months ago when it looked to be good politics to spring an election and secure a snap verdict? But meantime revelations have occurred that make the outcome of an election extremely uncertain, and the cry that a vote at this time would be alike dangerous and unpatriotic has been adopted in order to extend the life of an administration which has signally failed to live up to its responsibilities. rom the Ottawa Citizen.

Bobby Woolsey, who plays a "detective" in that queerly named George Choos act, "Oh Plaase, Mr. Tetective," is easily one of the laughter-providing hits of the bill. Woolsey gets more fun out of a humble pocketbook in twenty minutes than nine out of ten persons with that same pocketbook filled, to the him with crist bundred dollar bills. Incidentally, there are nine other people in the act who add considerably to the enjoyment of the performance. Other acts on this bill are: "Woman Proposes," with a company of eight people. Will Morris, the tramp comedian; and Stuart, the Male Patti.

as active and enthusiastic as at the age of twenty. It has been estimated that dur-ing her career on the stage she appeared ing her career on the stage she appeared before more notables, player to more people, and enacted her various roles more pie, and enacted her various roles more times than any other artist. The crowds that have surrounded theatres where she was playing have fought and struggled for hours in trying to see her: it concitines took her twenty-five minutes to get from her carriage to the stage door. Wemen have tried to anin, looks from her hair in passing by, men have begged her to write the rame on their curfs. On her first American tour the total receipts were \$534, 520, or an average of more than \$3,000 for each of one bundred and sixty six performances given in fifty different cities, a record that has never been equalled in the, history of the stage except by the "divine" Sarah herself, who surpassed it on a subsequent tour. Her greatness was increased by her refusal to allow advancing years to interfere with her ambitions and with her achievements. Madame Fernhard's last and greatest triumph was made in the motion picture art in a soulinspiring masterplece, only possible through the co-operation of the French government, called "Mothers of France" a drama which brings a nowerful message from the womanhood of that republic to the mothers of Canada. EMPRESS—Theda Bara comes once again to the Empress theatre, this time today and Saturday in the very latest William Fox production, "The Darling of Paris," a story saggested by the famous novel by Victor Hugo, "The Hunchback of Notre Dame." On top of this, for the programs of these two days is the made in Edmonton feature "None Faultless," and the Pathe Weekly Gazette, showing the Intest news of the world in picture form, including recent operations at the front. The part taken by Miss Bara in "The Darling of Paris," is one of the most interesting characters sho has ever been called upon to interpret since becoming identified with the silent drama. It is an unusual one, dominating the story from beginning to end. There are but few moments when she is not in the picture, which adds all the more importance to the production in general. Miss Bara's charming personality is so forceful that any picture in which she is seen is filled with more than passing notice. When she appears in a play, it is an event—a real dramatic event—one that attracts attention throughout the entire country, because of her popularity wherever she is known, and her fame extends throughout the world. In this particular section she might well be dubbed "The Darling of Elmonton." for the Empress theatre is always filled to capacity at all hours when one of her features is on the secreen. The same can be said of William Faruum, who is to follow at an early date in one of his newest releases. J. Gordop Edwards, director of Miss Bara's vehicle, is perhaps not ee well known locally as some of the others in this field of the motion picture enterprise, but those who have seen Miss Bara's pictures know the detail that has been put into them by the director, none other than into them by the director, none other than into them by the director, none other than Mr. Edwards. In this story he paid unions to make it as mean perf

MONABCE—Ample evidence that Norma Taimade in "The Law of Compensation" is a real drawing card is presented at every exhibition of this film at the Monarch theatre this week, where this six reel Selsnick-Picture is being shown to large and enthusiastic crowds. Selsnick-Pictures always seem to be patronised as witness Clera Kimball Young in "The Feolish Virgin," the same star in "The Common Law". Robert Warwick in "The Argyle Case," and other equally well known filmized novels and dramas. Miss Taimadge, who is seen for the first time here as a Selsnick star in "The Law of Compensation," appeals to her audiences largely because she knows the value of every detail of "business," as a result of six years' hard labor in her chosen work; good looks and a personality that results of six years' hard labor in her chosen work; good looks "business," as a result of six years' hard labor in her chosen work; good looks and a personality that reaches her andiences. She has been surrounded by an excellent company including Frederick Eamelton and Chester Barnett, the first a newcomer to motion pictures, and the last newcomer to motion pictures, and the last need a talented young juvenile man who is familiar to picture fans throughout America. One of Dudley Huxton's best war cartons in also on this program. Marguerite Clark in "The Valentine Girl." a feature for which the Famous Players Film company were responsible, will be shown at the Monarch all next week. In this wonderfully appealing story little Miss Clark plays the part of a gambler's daughter, one of the most unusual roles this talented star has ever been assigned.

Miss Clark plays the part of a gambier's daughter, one of the most unusual roles this talented star has ever been assigned.

MAJESTY—What stands out as one of the most unique photo-plays of the year is "The War of the Tongs," the Red Feather Drama of Chinese life in America, which is being shown at the Majesty today and tomorrow, in addition to the "Voice on the Wire" and cition to the "Voice on the Wire" and full program of comedy features. It is the only picture made in America from a story and scenario conceived by a Chinaman, played oxclusively by Chinese actors, with never a white man in the entire five reels, with all the settings, properties, etc., designed and made by Chinese workmen, and it shows for the first time many phases of Chinese life of which we have nover seen. In the shop, which is shown in the first part of the picture, we are introduced to the business methods of the Celestials, their rimitive adding machine, their book-keeping, their manner of making sales and recording them. The interesting way in which they weigh and measure is shown. Also for the first time we ree the complete interior of a Chinese gambling establishment, with the peculiar games played—the Chinese and remains of the world. Chinese fan-tan and dominoes, called real-row, are played—the Chinese are the grantest ramblers in the world. Chinese fan-tan and dominoes, called real-row, are played before us in detail, actually and fatthfully reproduced by the Celestials, themselves. The marriage customs, the archaic way of choosing a wife by means of the services of a go-between, and the important matter of dowers form ether friends geness. Perhans the secret societies, the re-called "rongs" are more sweerious and therefore more interesting scenes. (Modes of Today)

A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package.

CHILD'S SEVERE STOMACH TROUBLE

Harriston (Ont.) Father Says Dr Cassell's Tablets Saved His Child's Life,

Mr. Corby. Harriston P.O., Ont., writes: "Our little girl was weak from birth, and though we tried doctors' medicine and other things she got no better. She just lay in her cot and cried, and neighbors all said we could not save her. The doctors said her chances were small, yet Dr. Cassell's Tablets cured her. They have been worth their weight in gold to us, for we were just giving up hope of saving our little daughter. I don't think there is any other medicine for children like Dr. Cassell's Tablets. Publish this letter if you like; it may help others as the Tablets helped us."

A free sample of Dr. Cassell's Tab-

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for malling and packing. Address: Harold F. Ritchie & Co., Idd., 10 M'Caul street, Toronto. Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble, Sleeplessness, Anaemia, Nervous Ailments, Nerve Paralysis, Palpitation and Weakness in Children. Specially valuable for nursing mothers and during the critical periods of life. Sold by druggists and storekeepers throughout Canada. Prices: One tube, 50 cents; six tubes for the price of five. NEW SASK. JUDGE OTTAWA, May 24.—Hon. C. L. Do herly has given notice of a resolution o provide 46,000 for the salary of an additional 40.00 of the supressmeasure of Saskatchewan.

To sit still and contemplate,—to remember the faces of women without desire, to be pleased by the great deeds of men without envy, to be everything and everywhere in sympathy, and yet content to remain where and what you are—is not this to know both wisdom and virtue, and to dwell with happiness?—Stevenson.

If we are to have a food controller in Canada he should be a man built on other lines than those of the High Cost of Living Com missioner.

If the Opposition really want residents of the province who were born in enemy countries barred from voting, why did they not get up in the Legislature and

Still no intimation from opposi tion candidates as to what the Provincial Government could do that would induce the Dominion Government to extend their railway line from Sangudo toward Grand Prairie, which Opposition candidates want the Provincial Government blamed for not compelling the Dominion Government

Mrs. Hill has clearly taken the honors so far in her definition of Opposition policy, as composed of seven parts imitation and three parts allegation.' The only ground for disagreement is as to whether the figures should not be reversed. The component elements of the policy are correctly designated.

Hon, Mr. Blondin admits that had recruiting in Quebec Been put in charge of General Lessard when he war began the men of that Province would not have failed to to respond as readily as men of other Provinces, Mr. Blondin should know as well as anyone what means could have been effective in overcoming the treasonable influence he and his associates have succeeded in exerting upon the people of Quebec, and or the crime of not adopting such means he and they will have to answer when the time comes.

The Calgary Herald demands that all residents of the Province who are of German, Austrian, Bulgarian and Turkish descent be disfranchised, because certain individuals of these classes have been guilty of disloyal acts or ntterances and because others of them may cherish disloyal sentiments to which they have not giv-en expression. Unfortunately some individuals of British descent have also committed acts or sp. ! en words of treason to their race and country, and others may also be guilty of harboring unexpressed sentiments of disloyalty. Is it proposed to disfranchise all citizens of British descent on that his political interests. As the

If Mr. Michener and his friends intend to apply to the Dominion Government to have citizenship rights withdrawn from certain classes of people whom they suspect of not being toyal, what do they propose shall be done with Hon. Mr. Blondin and his associates-who now admit that voluntary enlistment was broken down in Quebec by their refusal to put the recruiting campaign in that province under direction of General Lessard and other men who could have carried it to success?
Of course if Albertans who were

born in enemy countries were disfranchised a good many of the Ruthenians who are serving in the ranks of the Irish Guards "somewhere' oversea would not be allowed to vote, nor the fathers and mothers who gave them to their adopted country, nor their relatives and friends wno presumably share their attachment to the cause of the Allies That surely is not deserved, or desired.

conomy that people are called upon to deny themselves ordinary necessities of life in order to supply the Government with war ingness that Mr. Michener and his funds, Sir Robert Borden an- associates should be entrusted with nounces that he proposes to add to the responsibilities of carrying on the avoidable and unnecessary the business of the province. declared in the House of Commons ener has not yet shown any valid that it is practically impossible to take the votes of the soldiers at the front and have them counted tunity to pronounce judgment up in the constituencies in which the on him at the usual interval. soldiers reside when at home. The statement was made after Sir Robert had visited England and France, and had learned at first hand what are the conditions there and why the holding of an election in the way suggested is not among the things possible of being carried out. Opposition papers which denounce the Sifton Government for not having the votes of Alberta's soldiers oversea counted in their home constituencies are declaring that Sir Robert Borden does not know what he is talking about when he says that is im-

The bakers of the city want the council to allow them to reduce the weight of wrapped loaves of bread from a pound and a half to pound and a quarter. Their purpose, they say, is to discourage the demand for wrapped bread, to thus cut out the cost of wrapping, and to keep the price per loaf down to its present level. There appears to be two points on which the public interest requires protection in the matter. One is that the purchaser shall know exactly what weight of bread he is getting. The other is that unwrapped bread shall be so handled that it will not accumulate dirt or disease germs. If those points can be covered there may be no objection to allowing the size of the loaf to be cut down, though it is not apparent what practical difference it makes to the consumer whether the size of the loaf is reduced or the price raised.

If we have come to the time when men should be conscripted in whatever way and to whatever extent is necessary, to conform with the sacrifice demanded of the drafted men; when the profiteers should be both punished and stopped from further operations; when the thus cut out the cost of wrapping, and to keep the price per

sacrifice demanded of the drafted men; when the profiteers should be both punished and stopped from further operations; when the cost of life's necessities should be regulated down to a reasonable relationship with the income of the average family; when the readigustment of the working power of the country should be undertaken with the authority of Government; and when the nation should be completely and in every way put on a war footing. To conscript the services of one man and to leave another man free to do what he pleases—even to spillage his countrymen—would be an outrage on both the individual and the country.

The Journal thinks many people who supported Mayor Henry last fall would not have done so if they

fall would not have done so if they had known that he would accept nomination as a Liberal candidate before the year was up. In this the Journal no doubt speaks for itself. That it would have supported him under such circumstances nobody supposes, whatever the consequences to the city's affairs. The Mayor's candidature, and his election, will not in any way interfere with his proper discharge of the duties of his position as chief magistrate of city. He very properly asked, and got from the council, leave of absence until the campaign is ended, thus dissociating himself beyond suspicion from any attempt to use his civic position to promote Legislature will not in the ordinary course of things be called to meet until after the New Year, his duties as a member will not in any way interfere with the time and attention he can devote to the business of the city for the remainder of the year. The claim that the Mayor's candidature for the Legislature is in any way injurious to the interests of the city is simply a form of words designed to cover a want of argument as to why he should not be elected.

The proposition that the people of the province should have been lisfranchised by the members of he late Legislature does not seem o be catching on to any notable extent. So far there is no sign of a rising tide of public wrath because the Legislature did not take upon itself to set aside the rights and processes of responsible government and to perpetuate itself in without leave or license of the elec-tors to whatever length of time would have been satisfactory to Mr. Michener and his friends, The place.

This being a time for such rigid only temptation to protest on that score lies in the view that it was hardly necessary to ask the elec-It was Sir Robert Borden who it was customary, and Mr. Michreason why the electors should have been deprived of the oppor-

A Reader, Killam.

Heavy, damp and cold ground will cause plants to be thus affected. The earth should be made as light and porous as possible and the plants should be watered early in the morning f moisture is required, so that the surface will be warm and dry at night. Such plants, of course, may be set out as late as June 1st and will mature if the variety is not an extremely late one.

Case of "Missing" Soldier.

To the Bulletin Legal Department:
How long after a soldier has been officially declared "missing" will the beneficiary of his will be required to wait before he can come into the use or benefit of money and property left by a will made in Alberta?

You will need to wait until the man is officially reported as killed.

To Collect Small Dobt.

To Collect Small Bobt.

To the Builetin Legal Department: There is a balance of \$9.00 due bn a note and the party who made the note will pay no attention to my letters. How can I get judgment for this amount without the aid of a legwyer, the note being payable in Edmenton. Through which court do I take action and what would be the probable costs.

You can issue a small debt writ without obtaining the services of a lawyer. You can obtain the writ from the clerk of the court, who will give you any information you need in regard to service.

Current Comment

As It Is Amended.

London Daily Chronicle. The new version: "America is, too proud to fight."

As the Battle Line Pro me. From Detroit Free Press.

By now it must have been borne on the Krupps that they're not t only gunmakers in the world.

Germany has discovered a secret agreement between England and America to deprive her of her colonies. We didn't know that Germany had had any colonies for the last couple of years. But perhaps she has some secret colonies somswhere.

Quite a Difference.

Did you notice that is the Kaiser's telegram to the Crown Prince he speaks of carrying through the "figite for existence to a glorious" end." No longer domination, spread of kultur, and a' that, you notice, but merely "existence." There is a world of blasted hopes to be read in that phrase ed hopes to be read in that phrase, which may well give the Allies heart.

(By the 18-year-old daughter of Harold Begble).)

There's Tom that drove it plowshare and now he loads a gunt. There's Dick could reap his acre Now soars agairst the sun; There's Jack that was it cowman is watching on a sea All dark with death ant hatred. But England's still, and free! Yet the harness shan't lie rusty Because of you and mu.

Who'll grow the breath of victory, Who'll keep the country clean? Who'll reap old England golden, Who'll sow her thick and green? Who'll teach their teams to whinny At another step than theirs? Who'll toil and ache from chilly dawn with love that never spares? Who'll rear another flock of lambs To crowd the lonely fairs?

Carry on! Carry on!
For the man and boys are gone;
But the furrow shan'l lie fallow
While the women carry on.

We may not die for England,
We'll work for England then;
She's our land just its their land—
Deserves her like hyr men!
O Tom, we'd give olyr comfort,
To stand where now you stand,
O Dick, we'd give our safety
To swoop at your right hand,
O Jack, we may not plow the sea
Well, we will plow the land.

Carry on! Carry on!
For the man and boys are gone;
But the furrow shan't lie failow
While the women curry on.

left Chapman together on Saturday and arrived in Edmonton that evening. The police are desirous of learning their whereabouts and \$100.00 reward has been offered for this information. When the girl left home she took two suits of clothes with her, one of which was a blue one. She has a mark on one side of her face that is the result of a bite by a dog. Lamacz is about 30 years of age and dark complexioned.

The father is greatly worried about the absence of his daughter, and is conducting an exhaustive search both in his home district and in the city in order to find some trace of her whereabouts.

In addition, despatches from Kaneas suggested a winter wheat yield of 60, 700,000 binshels in that commonwealth as against 42,00,000 bushels harvested last year. Notable improvement was also reported to be evident in Nebruska. The nearness of general harvest operations in Texas and Oklahoma counted also to some degree in pressing values.

Lowest quotations of the day, in the wheat pit came during the last hour, and were associated directly with altogether unconfirmed reports that the German Bayy had lost beavily in a battle of Religioland. Despite the increased weakness of the market, however, the amount of trading remained comparatively small.

Enlarged country efferings here tegether with apparent complete stoppage of shipping demand from the east led to shars breaks in the prices of corn. Resides, crop conditions were said to be ideal.

Ones went down grade in price owing chiefly to favorable weather. Beiling of July and buying of September was a favorite operation.

Provisions reflected the weakness of the grain and bog markets. On the declines, though, packers seemed to have turned to the buying side.

Today's Anniversaries

Alexander, Lord of the Isles, suffered a great humiliation on this day in the year 1427 for he was forced to do pennance of submission to Kin, James "in his shirt and drawers" before the congregation of Holyrood Church. A singular phenomenon occurred in 1840 on Lake Erie in the neighborhood of Toledo. The water of the lake ree to the height of four feet above the ordinary level in the space of a few hours, without apparent cause. The water was calm and so was the weather and no exmospheric disturbance was noted. The lake rose nearly a foot higher than ever beforwurder storm conditions, and has never risen to the same level since.

Famous Women

MARY WORTLEY MONTAGUE.

A little less than two hundred years ago Mary Wortley Montague made the first experiment of inoculation for smallpox upon her son in Belgrade, which at that time was within Turkish territory. It was tried in England with complete success upon criminals about nine years later. The disease first made its appearance in Meeca where it is stated to have destroyed the invading Ethippian army and thus terminated, in \$80, what is called the "War of the Elephant." Mary Wortley Montague had been a student of medicine and had gone to the Orient to nurse and study more closely the dread disease. The supreme test of her faith in insculation came when she subjected her own son to the treatment. This was in 1718. MARY WORTLEY MONTAGUE.

ears to his musikrat lady housekeeper one morning as he saw her coming out of the hollow stump bungalow with a Jasket on her paw.

"Why, yes, I am." she answered, looking over at the bunny rabbit genileman who was practicing so he could be a soldier, and walking up and down in front of his tent. "Did you want me to bring anything?" Miss Fuszy Wuzzy asked, for well she knew Uncle Wiggily, being a soldier, could not go and come as he pleased. He had to stay on guard near his tent, for there was no telling when the mosquito enemy might swoop down, biting every one.

"I'd like you to bring me some dried tapleca, so I can make a taploca pudding," spoke the bunny uncle. "I want some for dessert tonight, when I finish drilling with the animal boys, who will stop here on their way from school."

"Taploca you shall have!" said Nurse Jane with a switch of her tail to put herself on the right track. "Do you knew how to make it into a pudding?"

"Oh, yes," answered Uncle Wiggily. "You get the round, dried, hard taploca, which is like little white marbles. Then you soak it in water until it is soft, then you mixed it up with sugar and eggs and milk, and bake it in the uven. Oh, yes, I know how to make a taploca pudding. You do it almost as though you were making a rice one."

"But don't soak as much taploca as you'd do ri soak as much taploca, for it will make itself big as popcorn does."

"I'll remember," promised Uncle Wiggily, laughing as he thought of the mistake he had made with the rice, which story 'I have had the pleasure of telling you.

So while Nurse Jane went to the store for the taploca, Uncle Wiggily came safely falling down, with the big umbrella as a parachute, the tent fell too, not being hurt, and it was set up again.

"There, now go ahead and make nyour taploca pudding," said Nurse Jane, as she came back from the store and gave the bunny rabbit a package.

"I'll keep watch for any bad mosquitoes while you make you dessert."

Uncle Wiggily was a pretty good cook, and having everything be needed in his tent nice.

ding made. He set it in the oven, where it began to bake or boil or fry or stew—whatever taploca puddings should rightfully do.

"Ah, ha! It sinells most delicious," said Uncle Wiggily as he sniffed the air. "Now I will go out on guard again until it is baked. There will be no need of your watching for the bad mosquitoes any longer, Nurse Jane," he said to the musicrat lady. "You may go down to the three and four cent store, if you like, buy yourself a pair of diamond earrings and charge them to me."

"I thank you," said Nurse Jane, and away she went, tying her tail in a double bow knot so the cowsewould not step on it.

The pudding was soon nicely baked and Uncle Wiggily, sitting in front of his tent, presently fell fast asleep, for

is tent, presently fell fast the day was a warm, sunny one. And as he slept, a bad mosquito saw him.
"Ha! I know what I shall do," said the bad mosquito. "Fil sneak up, when Uncle Wiggily doesn't see me, asleep as he is, and I'll take all the bullets out of his gun. Then he can't shoot, and I'll get some of my other mosquito friends and we'll capture him, and carry him off to our swamp. I'd carry him alone only he is too large for me."

So this bad mosquito, flying softly up, took all the bean bullets out of Uncle Wiggily's popgun, leaving it unloaded. Then he flew off and called to all the other bad biting bugs.

"Come on!" he buxsed. "Now we can easily catch that rabbit. Out from their swamp swarmed the mosquito army. Boldly, and ready to bite, they sailed through the air toward the tent of the brave soldler rabbit. He was still asleep, but, all of a sudden he heard the buszing of the wings of the mosquito pests in the air ind awakened.

"Ha! The enemy approaches!" cried fincle Wiggily, Just like a book. "I must shoot at them with my bean popgun."

But when the rabbit gentleman pulled the trigger there was only a puff of talcum powder and no bullets shoot out to drive away the mosquitoes. "Ho! He! Ha! Ha!" cried the bad bugs. "Tou can't hurt us, but we can catch you. Busz! Bisz! Bazz!"

Today We Celebrate

Helps on the Farm

Dear Uncle Tom—This is my second letter to your interesting club. I am not sure if I wrote for April or not. I am going to school every day. I milk three cows in the morning before I go to school. We are milking six now and have about 60 head of cattle and 6 horses and 2 ducks and 5 pigs and 5 pigsons. I did not seemly first letter in pript and thought you had not received it. But I will try again, it is nothing like trying.

MARY SMITH. DE SOTO ROACHES AMERICA Fernando De Soto, the Spanish ex-plorer, is associated with much of the early history of this country. He is early history of this country. He is best remembered as having been the first European to look up on the Mississippi. The exact date of De Soto's birth is not known. His ancestors were Spanish nobles. At an early age he fell in love with the daughter of his patron. Dom Pedro de Avila. To prevent the marriage De Avila. To duced De Soto to accompany him to America, as he had recently been appointed sovernor of Spanish possessions in 1519. In 1527 he served in the expedition to Nicaragua under Lernandes, and in 1528 he withdrew entirely from the service of his patron. He spent considerable time in explorations, principally in South America. In 1527 he returned to Spain and married isabella, who for more than iffteen years had waited faithfully for him. Two years later he sailed for America accompanied by his wife to a America accompanied by his wife to take up his duties as governor of Cubato which office he had been appointed by the Spanish Emperor Charles V, who gave him permission to conquer Florida at his own expense. A large and efficient soldiery sailed with him. As a large and efficient soldiery sailed with him as a factor of the sold of Florida with his troops remembered as having High Prairie, May Isth.

Has Many Chickens

Dear Uncle Tom—I received my badge and am pleased with it, and thank you very much. I have six brothers and five sisters. One of my sisters and one brother and my-self are going to school every day. We have one mile and a half to go to school. We like our teacher. Her name is Mrs. Parks. My mamma has 130 little chickens now. I'll be 10 years old the 16th of June and my baby sister will be one year old. Wishing the club every success. Dear Uncle Tom—I am tired waiting to see my letter in print at I have not much time to write because I have to work in the field. I suppose all the members of your lub are busy teo. I am not going to school now. This is all for this time.

High Prairie, May 21. Dear Uncle Tom.—This is my first letter to the Aladdin club. I got my badge a few weeks ago. I like to read the stories of Uncle Wiggliy very much. I think this is very late spring this year.

ERA HIBAK. Florida at his own expense. A large and efficient soldiery sailed with him. After leaving the women in Cuba, De Soto sailed for Florida with his troops and landed on the present site of Tampa on May 25, 1559. This was the first time he had ever set foot on any portion of land now constituted as part of the United States. The ships were sent back to Cuba and the Spaniards, confident of success, pushed on into the interior of Florida in their inevitable search for gold. From this time De Soto never left the country. He and his followers pushed on toward the west and finally reached the Mississippi. On its banks he fell fil with a slow fever and he gradually realized that the end was near. On the day before his death he called his followers about him and appointed his successor. His body was wrapped in his mantle and was sunk in the Mississippils and was wrapped in his mantle and was sunk in the Mississippils. A Fall from a Horse
Dear Uncle Tom—I have not seen my
letter in print. I have received my pin
and am very proud of it. One day when I
was going after the cows the old gander
was with them and my horse got frightened
and threw me off. It did not hurt me because I struck in a sand pile.
Yours truly,
M. MERLE CRAIGE.

CHINA CAN NOW **DECLARE WAR** ON GERMANY

Wu Ting Fang Is Appointed Premier-End Deadlock In Parliament.

PEKIN, May 4.— President Li Yuan Hung has issued a mandate dismissing Premier Tpan Chi Jiu from ciffice and naming Dr. Wu Ting Fang, former ambassador to the Unite States, as acting premier and empowering him to form a new cabine. This action probably will end the deadlock in parliament and make possible a deciaration of war by China against Germany.

The provisional military governors who were attempting to disband parliament left Peking before the president took actic against Tuan Chi Jui, as the president had positively announced that he would disregaritheir demand for dissolution of the legislative body. The president declared that parliament must not be coerced in any way and announced his intentaion to conduct the government in accordance with the provisional legislation at any cost.

The disgruntled military governors probably will instigate protests in the provinces against Li Yuan Hung for his rebuke to the military power, but the president's firm stand is inspiring admiration. The indications are that the military leaders, headed by Tuan Chi Jui, have lost public sympathy.

General Wang Shin Chen, one of the

pathy.
General Wang Shin Chen, one of the general staff, has been made commander of the emergency troops guarding the Peking-Tien Tsin railway to prevent the disgruntled military leaders from seizing the line.

J. W. DeB. FARRIS IS NEW ATTORNEY GENERAL OF B.C.

Young Vancouver Lawyer Is Sworn In-Also Minister of Labor.

VICTORIA, B. C., May 24.—J. W. DeB. Farris, a young Vancouver lawyer, was this afternoon sworn in as attorney general to succeed Hon. M. A. MacDonald, who recently resigned. To Mr. Farris was also attached the portfolio of minister of labor, a new department created at a recent sitting of the house. Mr. Farris was returned from Vancouver at the last election. He is a son of a former cabinet minister in the New Brunswick government and has lived in Vancouver for more than ten years.

The bye-election created by his entry into the cabinet will be held on June 9.

GERMAN RADICALS WILL BE TRIED ON TREASON CHARGES

Socialists Who Favored Strike Will Be Hunnishly Dealt

AMSTERDAM, May 24., via London—Proceedings against some of the boldest and most prominent German Radicals on the charge of high treason is contemplated, the Vossische Zeitung of Berlin says. An investigation is under way of the participation in the meetings in Berlin in connection with the munition strikes of George Ledebour.
